

Daily Report – Monday (first day at school)

04/05/2026

On Monday, we went to school and started our day in the assembly hall. There, we were warmly welcomed by the headmaster, who gave us an overview of the upcoming week and what activities we could expect. After that, we took part in some icebreaking activities, where we got to know the Portuguese students, the students from Gran Canaria, and each other better. Later, we grabbed something to eat from the cafeteria and spent some relaxed time together. We also had the chance to explore the school and get a better impression of the environment. Before our next lesson, we enjoyed some free time outside, where we all played basketball together, which was a lot of fun.

Afterwards, we joined a sports class and played badminton. Once the lesson was over, we had lunch together, which was a nice moment to relax and talk with everyone. In the afternoon, we took part in a scavenger hunt around the area. It was a great way to explore different spots while working together as a group. Overall, we really enjoyed the day and had a lot of fun getting to know everyone. In the evening, we spent time together as students, but what exactly we did will remain our little secret.
